

Your Future is Calling

2010 Instructional Courses

Hilton Kansas City Airport
Kansas City, Missouri

American Academy of
Environmental Medicine

imagine

Finally *SOLVING* many of your patients' most complex health problems

EXPANDING your professional skills

Being as *EXCITED* about practicing medicine as when you first graduated

Environmental Medicine is an integration of principles drawn from primary and specialty health care fields, as well as the basic sciences. It describes the homeodynamic interactions between the human body and our complex, ever-changing environmental and dietary exposures. The resulting insights and healthcare strategies have tremendous potential to increase quality of life and reduce long-term health care costs.

For more than four decades, the American Academy of Environmental Medicine (AAEM) has provided research and education in the recognition, treatment and prevention of illnesses induced by exposures to biological and chemical agents encountered in air, food, and water.

Environmental Medicine helps you identify and treat the specific cause of many frustrating conditions, including:

- ADD
- Allergies
- Asthma
- Chronic Fatigue
- Arthritis
- Migraines
- Irritable bowel
- Fibromyalgia
- MS
- Depression
- Auto-immune disorders
- Many other chronic illnesses

COURSE INFORMATION

Course Description and Needs Assessment

The public is increasingly concerned about potential environmental health hazards and often wants answers to very concrete questions, such as: is the water safe to drink? Could my miscarriage be due to my work environment? Are pesticides used on fruit harmful? What is the benefit of eating organic foods? Patients ask their physicians these questions because they trust them and value their advice. Unfortunately, physicians often lack adequate, appropriate information and training with respect to environmental risks and health. Today's challenge is to help healthcare professionals from all specialties and medical disciplines develop the knowledge and skills they will need to deal effectively with environmental health issues in clinical care.

Once a year the American Academy of Environmental Medicine presents four instructional courses to teach healthcare professionals about new and developing environmental health challenges. These courses teach physicians to understand the influence of the environment and environmental agents on human health due to exposures to foods, inhalants and chemicals. Physicians and all health care practitioners will also learn to recognize the signs, symptoms, diseases and sources of exposure relating to common and toxic environmental agents and learn exactly how to treat them.

Educational Goals

Part I

The Principles of Environmental Medicine and The Diagnosis and Treatment of Inhalant Allergies/Sensitivities

Thursday, March 25 thru Saturday, March 27, 2010

- To enhance understanding of the multiple impacts of environmental exposures on health.
- To provide an initial overview of the field of Environmental Medicine, within which Inhalant Allergies/Sensitivities is an important component.
- To provide the practitioner with a comprehensive program with which to assess and treat complex inhalant allergies and sensitivities in the office setting.
- To provide insights and techniques that can be used in the office tomorrow, without making any major changes in the office, as well as more advanced techniques for enhanced management.

Part II

A Comprehensive Course for Diagnosis and Treatment of Food Sensitivities

Saturday, March 27 thru Monday, March 29, 2010

- To provide a complete, scientifically validated program on the effective diagnosis and treatment of food sensitivity, so that the participants can immediately use the provided insights and modalities to achieve effective long-term, cost-effective medical outcomes for their patients.
- To provide concepts and tools that will enhance the success of your practice now.

Part III

The Diagnosis and Treatment of Chemical Sensitivities

Thursday, March 25 thru Saturday, March 27, 2010

- To briefly review the major principles of environmental medicine, so as to better appreciate the differences between toxicity and sensitivity to chemicals.
- To provide important new insights into the mechanisms of chemical sensitivities that are behind many important health problems seen in your medical practice.
- To present new diagnostic and treatment modalities to help you improve treatment outcomes in a safe and cost-effective manner for your complex patients suffering from chemical sensitivities.
- To provide concepts and tools that will enhance the success of your practice now.

Part IV

Practical Nutrition, IV Nutrition and the New Endocrinology

Saturday, March 27 thru Monday, March 29, 2010

- To teach the practicing physician about the most important oral nutrients patients usually need and how to evaluate their nutritional status with selected laboratory tests
- To teach the diagnosis and treatment of common endocrine disorders
- To provide experience with IV nutrient formulation and administration with a hands-on workshop.

Target Audience

This course is intended for practicing physicians and other healthcare professionals interested in enhancing the outcomes of common and complex illnesses using the practices of Environmental Medicine. This activity will be especially helpful for Allergists, Occupational Medicine Physicians, Toxicologists, and Primary Care Physicians.

Part I The Principles of Environmental Medicine and The Diagnosis and Treatment of Inhalant Allergies/Sensitivities

March 25, 2010

- 8:00 a.m. Welcome and Goals and Objectives
- 8:15 a.m. The Model of Environmental Medicine: A New and Effective Approach to Complex Chronic Diseases
- 9:15 a.m. Questions and Answers
- 9:30 a.m. Beverage Break
- 10:00 a.m. Aeroallergens: Natural History / Distribution / Health Impacts
- 11:00 a.m. Questions and Answers
- 11:15 a.m. The Complex Role of the Diet in Chronic Diseases: Avoiding Nutritional Potholes in the Road to Optimal Health
- 12:15 p.m. Questions and Answers
- 12:30 p.m. Lunch on Your Own
- 1:30 p.m. Man Made Chemical Exposures: Do These Contribute to Chronic Disease?
- 2:15 p.m. Questions and Answers
- 2:30 p.m. Environmentally Focused History: How to Identify Your Patients' Harmful or Potentially Harmful Exposures
- 3:30 p.m. Questions and Answers
- 3:45 p.m. Beverage Break
- 4:15 p.m. Environmental Modifications Techniques
- 5:00 p.m. Questions and Answers
- 5:15 p.m. Adjourn

March 26, 2010

- 8:00 a.m. Diagnosis of Allergic Disease - Sign and Symptom Patterns
- 8:45 a.m. Immunology of Inhalant Allergy: How Immunotherapy and Pharmacotherapy Work
- 9:30 a.m. Adverse and Anaphylactic Reactions: How to Prevent, Identify and Treat
- 10:00 a.m. Questions and Answers
- 10:15 a.m. Beverage Break in Exhibit Hall
- 11:00 a.m. Serial Dilution Endpoint Titration Principles and Whealing Responses
- 11:45 a.m. Questions and Answers
- 12:00 p.m. Exhibitor Welcome Luncheon sponsored by AAEM
- 1:30 p.m. Vertical Safety Screen and Linear Testing
- 2:15 p.m. Testing Demonstration: Serial Dilution Endpoint Titration
- 3:45 p.m. Beverage Break in Exhibit Hall
- 4:30 p.m. Serial Dilution Endpoint Titration Practicum
- 6:00 p.m. Adjourn

March 27, 2010

- 8:00 a.m. Serial Dilution Endpoint Titration Dose Calculations and Escalation
- 9:30 a.m. Practical Troubleshooting - What To Do If Treatment Does Not Succeed
- 10:30 a.m. Beverage Break in Exhibit Hall
- 11:15 p.m. Wrapping It All Up - Questions and Answers Panel Discussion
- 12:00 p.m. Adjourn

The American Academy of Environmental Medicinesm designates this educational activity for a maximum of 17.5 AMA PRA Category 1 Credit(s)tm. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Application for CME credit has been filed with the American Academy of Family Physicians. **Determination of credit is pending.**

Part II A Comprehensive Course for Diagnosis and Treatment of Food Sensitivities

March 27, 2010

- 1:30 p.m. Introduction and Review of Goals and Objectives
- 2:00 p.m. The History of Food Sensitivity: An Evolution in Process
- 2:30 p.m. The Paleolithic Diet (What We Should Be Eating)
- 3:00 p.m. The Unexpected Diversity of Symptoms from Food Sensitivity
- 3:30 p.m. Taking the History in the Food Sensitive Patient
- 4:00 p.m. Beverage Break in Exhibit Hall
- 4:45 p.m. The Physical Examination and Laboratory Tests
- 5:15 p.m. Brief Overview of Diagnostic Approaches to Food Sensitivity
- 5:45 p.m. Panel - Questions and Answers
- 6:45 p.m. Adjourn

March 28, 2010

- 8:00 a.m. Natural History of Food Sensitivity
- 8:45 a.m. Role Of Oral Challenge Feeding Tests In Diagnosis Of Food Sensitivity
- 9:30 a.m. The Difference Between Serial Dilution Endpoint Titration (SDET) And Provocation/Neutralization
- 10:00 a.m. Beverage Break in Exhibit Hall
- 10:30 p.m. Intradermal And Sublingual Provocation/Neutralization Food Testing
- 11:30 a.m. Dealing With Glycerin And Phenol Sensitivity In Provocation/Neutralization Testing
- 12:00 p.m. Luncheon sponsored by AAEM
- 1:30 p.m. The Provocation/Neutralization Food Test: Which Foods To Test And How To Make Up The Testing Trays
- 2:15 p.m. Demonstration of the Intradermal and Sublingual Provocation/Neutralization Testing Techniques
- 3:30 p.m. Beverage Break with Exhibitors
- 4:00p.m. "Hands On" Practicum in Provocation/Neutralization Techniques
- 6:30 p.m. Adjourn

March 29, 2010

- 8:00 a.m. An Overview of Treatment Approaches to Food Sensitivity
- 9:00 a.m. The Rotary Diversified Diet: Diagnostic, Therapeutic, and Preventive
- 9:30 a.m. The Impact Of Basic Nutrition On Food Sensitivity
- 10:00 a.m. Beverage Break
- 10:30 a.m. The Potential Dangers of Genetic and Chemical Alterations of Our Food
- 11:00 a.m. The Multitude Of Contaminants In Our Foods
- 11:30 a.m. Endocrine Diseases and Food Sensitivity
- 12:00 p.m. Lunch on Your Own
- 1:30 p.m. Fatty Acids - The Good and The Bad
- 2:30 p.m. Immunology "Crosstalk" and the Autonomic Nervous System
- 3:00 p.m. Beverage Break
- 3:30 p.m. Fungal Related Diseases and Their Relationship to Food Sensitivities
- 4:30 p.m. Wrapping It All Up
- 5:00 p.m. Adjourn

The American Academy of Environmental Medicinesm designates this educational activity for a maximum of 18.5 AMA PRA Category 1 Credit(s)tm. Physicians should only claim credit commensurate with the extent of their participation in the activity.

This activity has been reviewed and is acceptable for up to 18.5 Prescribed credits by the American Academy of Family Physicians.

Part III The Diagnosis and Treatment of Chemical Sensitivities

March 25, 2010

8:00 a.m.	The Goals and Objectives of the Course	4:15 p.m.	How to Evaluate and Optimally Document Findings of the Chemically Injured Patient	3:00 p.m.	An Overview of Treatment Modalities - Avoidance, Sauna, and More
8:30 a.m.	Overview of the Principles of Environmental Medicine for Diagnosis and Treatment	4:45 p.m.	Working Up Chemically Injured Patients: Practical Case Review for Causation - Injury	3:30 p.m.	Beverage Break in Exhibit Hall
9:00 a.m.	The Comprehensive History of the Chemically Sensitive Patient	5:15 p.m.	Case Presentation - Panel	4:15 p.m.	The Role of Toxic Heavy Metals in Chemical Sensitivity and Do's and Don't's of Chelation Treatment
9:30 a.m.	The Comprehensive Physical Examination and Initial Lab Evaluation for the Work Up of the Chemically Sensitive Patient	6:15 p.m.	Questions and Answers	5:15 p.m.	Questions and Answers
10:00 a.m.	Beverage Break	6:45 p.m.	Adjourn	5:45 p.m.	Adjourn
10:30 a.m.	How Chemicals Affect the Immune System	March 26, 2010			
11:00 a.m.	The Common Sources of Toxic Chemicals That Can Cause Human Disease - Pollutants, Organic Toxins, Plastics, Solvents, Pesticides and Pyrethroids (CPST)	8:00 a.m.	An Overview of Toxicology	8:00 a.m.	The Role of Optimal Macronutrient and Micronutrient Status in the Treatment of Chemical Sensitivity
11:45 a.m.	Immunomarkers of Immunotoxicity from Lab Tests: Interpretation of Solvents, Pesticides and Toxic Heavy Metals	8:30 a.m.	Respiratory Effects from Chemical Sensitivity	8:30 a.m.	The Important Role of Oxygen Therapy in the Treatment of Chemical Sensitivity
12:15 p.m.	Lunch	9:00 a.m.	Pesticide and Pyrethroid Poisoning and Chemical Sensitivity	9:00 a.m.	The Role of Injection Therapies in the Treatment of Chemical Sensitivity: Chemicals, Viruses, Bacteria, and Neuropeptides
1:45 p.m.	Lab Tests To Diagnosis the Presence of Chemicals and Their Systemic Effects	9:30 a.m.	Cardiovascular Effects from Chemical Sensitivity	9:30 a.m.	Practicum Case History and Intradermal Chemical Testing and Treatment
2:15 p.m.	An Overview of Skin and Sublingual Testing For Chemical Sensitivity	10:00 a.m.	Beverage Break	10:30 a.m.	Beverage Break in Exhibit Hall
2:45 p.m.	Water and Soil Pollution	10:30 a.m.	Indoor Air Pollution	11:15 p.m.	Questions and Answers
3:15 p.m.	Beverage Break	11:00 a.m.	Food Pollution	12:00 p.m.	Adjourn
3:45 p.m.	Outdoor Air Pollution	11:30 a.m.	Neurotoxicity Effects from Chemical Sensitivity		
		12:00 p.m.	Exhibitor Welcome Luncheon sponsored by AAEM		
		1:30 p.m.	Gastrointestinal and Genito Urinary System Dysfunction from Chemical Sensitivity		
		2:00 p.m.	Ear, Nose, and Throat and Chemical Sensitivity		
		2:30 p.m.	Musculoskeletal Syndromes and Chemical Sensitivity		

March 27, 2010

8:00 a.m.	The Role of Optimal Macronutrient and Micronutrient Status in the Treatment of Chemical Sensitivity
8:30 a.m.	The Important Role of Oxygen Therapy in the Treatment of Chemical Sensitivity
9:00 a.m.	The Role of Injection Therapies in the Treatment of Chemical Sensitivity: Chemicals, Viruses, Bacteria, and Neuropeptides
9:30 a.m.	Practicum Case History and Intradermal Chemical Testing and Treatment
10:30 a.m.	Beverage Break in Exhibit Hall
11:15 p.m.	Questions and Answers
12:00 p.m.	Adjourn

The American Academy of Environmental Medicinesm designates this educational activity for a maximum of 18.5 AMA PRA Category 1 Credit(s)tm. Physicians should only claim credit commensurate with the extent of their participation in the activity.

This activity has been reviewed and is acceptable for up to 18.5 Prescribed credits by the American Academy of Family Physicians.

Part IV Practical Nutrition, IV Nutrition and the New Endocrinology

March 27, 2010

- 1:30 pm Introduction to New Endocrinology and The Thyroid
Part I: Updating the Endocrine "Disease Model"
Part II: Correct Interpretation of Laboratory Tests Of Endocrine Function
Part III: The Thyroid: Physiology, Dysfunction, Diagnosis and Treatment
- 3:30 pm Thyroid Conundrums: Tricky Little Situations
- 4:00 pm Questions and Answers
- 4:15 pm Beverage Break in Exhibit Hall
- 5:00 pm The Adrenal Gland: Stress and Chronic Fatigue
- 6:30 pm Adjourn

March 28, 2010

- 8:00 am Introduction to Clinical Nutrition
- 9:00 am What the Body Needs to Be Well
- 10:00 am Beverage Break with Exhibitors
- 10:35 am Dietary Choices to Achieve Optimal Health
- 11:45 pm Questions and Answers
- 12:00 pm Luncheon sponsored by AAEM
- 1:30 pm IV Therapy with Nutrients: Rationale, Indications and Precautions
- 1:45 pm Great IV Protocols You Need To Know
- 2:00 pm Calculating Osmolarity: A Critical Factor When You Use IV Therapy
- 2:30 pm Questions and Answers
- 3:00 pm Beverage Break
- 3:30 pm IV Therapy Infusion
- 4:00 pm Practicum - IV Therapy Push
- 5:30 pm Questions and Answers
- 6:00 pm Adjourn

March 29, 2010

- 8:00 am The Ovaries: PMS, Menstrual Problems and Menopause
- 9:30 am Beverage Break
- 10:00 pm Andropause: DHEA, Aromatase, and Male HRT
- 12:00 pm Lunch On Your Own
- 1:30 pm Insulin Resistance: Syndrome X and the Metabolic Syndrome
- 3:30 pm Beverage Break
- 4:00 pm Bones and Hormones: Evaluating the Osteoporotic Patient for PTH, Vitamin D and Related Problems
- 4:45 pm Case Presentations
- 5:45 pm Questions and Answers
- 6:15 pm Adjourn

The American Academy of Environmental Medicinesm designates this educational activity for a maximum of 19.25 AMA PRA Category 1 Credit(s)tm. Physicians should only claim credit commensurate with the extent of their participation in the activity.

This activity has been reviewed and is acceptable for up to 19.25 Prescribed credits by the American Academy of Family Physicians.

Workshop Offered

Over 40 Years of Clinical Pearls

March 27, 2010

7:00 - 9:30 p.m.

Join renowned author and lecturer Doris Rapp, M.D., FAAEM as she discusses Environmental Illness in all age groups. During this evening lecture, Dr. Rapp will offer a simple yet effective approach to handling "problem" children and show attendees how to identify the common foods, chemicals, or allergic substances that could be the culprits which cause some children, and even adults, to feel unwell or act inappropriately.

Most environmental or allergy symptoms are due to:

- Something inside the patient's home, school, or work area
- Something outside the patient's home, school, or work area
- Foods or beverage
- Chemical exposures

Dr. Rapp states, "We now have epidemics of ADHD, cancer, fatigue, headaches, obesity, early puberty, sterility, brain defects, muscle and visual problems to name only a few. We must stop and figure out why. Eliminate the cause and there's nothing to treat. Chemicals are major causes of today's health challenges".

Meet The Faculty Reception

Join us for the "Meet the Faculty" Reception and Happy Hour on Friday March 26th and Sunday March 28th. This reception is a great opportunity to informally meet the outstanding faculty, as well as members of the Board of Directors and your fellow classmates.

The \$15.00 cost of the reception includes a Hosted Bar and Hors d'oeuvres.

FACULTY

Planning Committee/Teaching Faculty

John H. Boyles, Jr., M.D. – Centerville, OH • Past President and Fellow of AAEM; Past President of AAOA; Physician, Dayton Ear, Nose and Throat Clinic; Board certified in Otolaryngology and Environmental Medicine; Assistant Clinical Professor, Wright State Medical School

Alan B. McDaniel, M.D. – New Albany, IN • Private Practice; Fellowship in Neurotology; AAOA Instructor; Board certified in Otolaryngology

Gary Oberg, M.D., FAAEM – Crystal Lake, IL • Board Member, Past President, Past CME Committee Chair and Fellow of AAEM, Board Certified Environmental Medicine and Pediatric, Private Practice

Kalpana D. Patel, M.D. – Buffalo, NY • President: Environmental Health Center-Buffalo, American Board of Environmental Medicine, International Board of Environmental Medicine, and Environmental Health Foundation-New York. Past Treasurer and Fellow of AAEM

W.A. “Butch” Shrader, Jr., M.D. – Santa Fe, NM • CME Committee Chair, Past President and Fellow of AAEM; Medical Director, Santa Fe Center for Allergy and Environmental Medicine; Board certified in Environmental Medicine

James W. Willoughby, II, D.O. – Liberty, MO • Treasurer and Past President of AAEM; Private Practice, Liberty Holistic Medical Center.

Teaching Faculty

A.L. Barrier, M.D. – Columbia, MO • Board Member of AAEM; Associate Professor of Otolaryngology-Head and Neck Surgery at the University of Missouri; Board certified in Surgery

Robin Bernhoft, M.D. – Ojai, CA • President-Elect of AAEM; Board certified in Surgery; Medical Director, Bernhoft Center for Advanced Medicine

Stephen Genuis, M.D. – Edmonton, Canada • Board Member and Fellow of AAEM, Board Certified in Environmental Medicine, Diplomat of the American Board of Obstetrics and Gynecology, Fellow of the Royal College of Surgeons of Canada, Assistant Clinical Professor, Dept of OBGYN, University of Alberta, Private Practice

Richard G. Jaeckle, M.D. – Dallas, TX • Private Practice; Board certified in Environmental Medicine; Psychiatry & Neurology; Psychiatry & Child/Adolescent Psychiatry

Lynn Marshall, M.D., FAAEM – Toronto, Canada • Board Advisor and Past President of AAEM, Fellowship in Environmental Medicine, Fellow Royal Society of Medicine, Medical Education Liaison, Environmental Health Clinic, Women’s College Hospital Toronto

William J. Meggs, M.D. – Greenville, NC • Professor, Chief of Division of Toxicology, Senior Vice Chair, Brody School of Medicine at East Carolina University; Board certified in Internal Medicine, Emergency Medicine, Allergy & Immunology and Toxicology

David W. Quig, Ph.D. – St. Charles, IL • Vice President, Scientific Support for Doctor’s Data, Inc.; Specializes in effects of heavy metal and chemical toxicity on nutrition and metabolism.

Doris Rapp, M.D. – Scottsdale, AZ • Past President and Fellow of AAEM; Retired Physician; Board certified in Pediatrics, Allergy and Environmental Medicine

William J. Rea, M.D. – Dallas, TX • Past President and Fellow of the AAEM; Medical Director, Environmental Health Center; Board certified in Surgery, Thoracic Surgery and Environmental Medicine

Diego Saporta, M.D. – Elizabeth, NJ • Board Member of the AAEM; Fellow AAOA; Private Practice; Board certified in Otolaryngology

Robert Taylor, M.D. – Durham, N.C. - Board Member of AAEM, Board Certified Otolaryngology, Private Practice

Aristo Vojdani, Ph.D. – Beverly Hills, CA • Owner - Immunosciences Lab, Inc.; Specialist in Immunology and Immunotoxicology Testing

Support Staff: **Joann Haley, A.T., Barbara Shrader, Betsy Willoughby, R.N.**

Faculty Disclosure

In accordance with the ACCME Standards for Commercial Support, course directors, planning committee, faculty and all others in control of the educational content of the CME activity must disclose all relevant financial relationships with any commercial interest that they or their spouse/partner may have had within the past 12 months. If an individual refuses to disclose relevant financial relationships, they will be disqualified from being a part of the planning and implementation of this CME activity. Employees of a commercial interest with business lines or products relating to the content of the CME activity will not participate in the planning or any accredited portion of the conference.

Disclosure will be made to all participants at the conference location, prior to the educational activity commencement.

Accommodations

Hilton Kansas City Airport
8801 NW 112th Street
Kansas City, MO 64153

The Hilton Kansas City Airport is offering a limited number of rooms at a special discounted room rate of \$99.00 standard single/double, so mention that you are attending the AAEM 2009 Instructional Courses when making your reservations. The special discounted block of rooms is available until the block is sold or until 12PM, Wednesday, March 10, 2010. When the rooms are gone you will be required to pay full room rate, so hurry to make your reservations now at 816.891.8900.

Destination

Kansas City International Airport (MCI)

Transportation

The Hilton Kansas City Airport provides a free shuttle service to the hotel from the Kansas City International Airport.

Accreditation

The American Academy of Environmental Medicinesm is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Recording and Photography Clause

AAEM reserves the exclusive rights to record (audio and video) and/or photography all conference proceedings for use in marketing materials, presentations and course content sales.

Please - No scented toiletries in meeting and exhibit areas!

The American Academy of Environmental Medicine

wishes to thank

Antigen Laboratories

College Pharmacy

The Pure Water Place

for the generous product donations in support of the

2010 Instructional Courses.

AAEM Spring Meeting Registration

Courses and Electives

Kansas City, Missouri

March 25 - 29, 2010

Please register me for the following courses:

	<u>Professional</u>	<u>Auxiliary Staff</u>	<u>Student/Resident**</u>	<u>Amount Due</u>
March 25 - 27, 2010				
Select one of the following:	Part I - Inhalants	\$795.00	\$595.00	\$295.00
	Part III - Chemicals	\$795.00	\$595.00	\$295.00
			AAEM Member Discount	<u>- \$100</u>

March 27 - 29, 2010				
Select one of the following:	Part II - Foods	\$795.00	\$595.00	\$295.00
	Part IV - Endocrinology	\$795.00	\$595.00	\$295.00
			AAEM Member Discount-	<u>\$100</u>
			Second Course Discount	<u>- \$50</u>

Meet the Faculty Reception -- \$15.00 each Friday _____ Sunday _____

(Hosted Bar and Hors d'oeuvres)

Workshops

Dr. Doris Rapp Elective (No CME Included) \$49.00 per attendee _____

TOTAL DUE _____

** Student/Resident registration must be accompanied by a letter from an accredited medical school certifying status. AAEM Member discount not available.

Note: Group rate is available to groups of 3 or more from the same company who register at the same time.

Please complete separate forms for each attendee

Name _____ AAEM Member Yes No

Office Address _____

City _____ State _____ Zip _____

Office Telephone (____) _____ Fax (____) _____ E-mail _____

Indicate Status: PROFESSIONAL: MD DO Ph.D. DDS ND DC

 AUXILIARY: RN LPN Tech NP PA

 OTHER: Student/Resident

Method of Payment: Credit Card # _____ Expiration Date: _____

 Security # _____ (On the back of your card, locate the final 3 digit number or 4 digit AMEX)

 Name as it appears on the card _____
