The Use of IV Therapy with Nutrients for Physicians	7
Introduction	7
Why IV Therapy?	8
Chapter 1: In the Medical Literature: Specific Reported Actions and Benefits of Nutrients Given Intravenously	11
Alpha Lipoic Acid (ALA).....	11
Vitamin A	11
Vitamin B ₆ (pyridoxine) and Folate.....	11
Vitamin B ₁₂ (cyanocobalamin, hydroxocobalamin, methylcobalamin)	11
Vitamin C (ascorbate, ascorbic acid)	12
L-Carnitine.....	14
Coenzyme Q10	14
Glutathione (GSH).....	14
Vitamin K-1	15
Magnesium.....	15
Molybdenum.....	18
N-Acetyl Cysteine (NAC).....	18
Niacin.....	19
Phosphatidyl Choline	19
Sodium Bicarbonate (Bicarb).....	19
Thiamine	20
Chapter 2: IV Therapy with Nutrients – Dosages, Safety, Precautions, Contraindications, Treatment of Adverse Reactions	21
Dosages of Nutrients to Use for IV Therapy.....	21
Safety of IV Therapy	21
Use Preservative-free nutrients	22
IV Therapy Makes Patients Love You.....	23
Laboratory Testing for Nutrients	23
Contraindications to IV therapy	24
Possible Reactions to IV Infusions.....	25
Sensitivity to B-Complex – Methylation defects.....	25
Treatment of Adverse Reactions	25
The Safety Record for IV Nutritional Therapy	26
Chapter 3: Calculation of Osmolarity.....	29

Osmolarity	29
Safe upper limits of osmolarity for IV solutions (approximate)	29
Calculating Osmolarity	30
Table 1: Osmolarity Calculation Worksheet for Commonly Used Nutrients.....	31
Osmolarity Calculation Formula.....	31
Headache Protocol	32
Chapter 4: General Instructions and the Meyer Protocol	37
The Two Fundamental Rules for IV Therapy	37
Basic Supplies	38
A Word about Osmolarity.....	39
Methods of Administration	39
Meyer Protocol.....	40
Chapter 5: Basic Asthma Protocols and Step-by-Step Preparation & Administration of the Push and the Infusion Protocols in your Office	43
IV Protocols for Acute and Chronic Asthma	43
Acute Asthma Protocol - Given IV Push (60 cc syringe) with a 23 gauge needle	43
Chronic Asthma Protocol - Given by IV infusion (250 cc bottle).....	43
Exactly How to Do It	45
Drawing up Nutrients: Asthma IV Push Protocol	46
Preparation Instructions for this “Push”: Drawing up the Nutrients	47
Preparation of the IV	50
Mixing: IV Drip Infusion for Chronic Asthma	52
Note about the IV Bag	52
Drawing up the Nutrients	52
Drawing up the IV	53
Setting up the IV	56
How Do these IVs Work?	58
The Drip Infusion Protocol for Chronic Asthma	60
Long Term Effects	60
Billing Codes	61
Protocols for Migraine and Headaches.....	63
FDA Regulations	63
The FDA Speaks.....	66
Chapter 6: Advanced IV Nutrient Protocols.....	73
Protocol for Migraine, Headaches and Magnesium Deficiency	74
Super-Immuno Protocol.....	75

Macular Degeneration Protocol	75
Protocol for Acute Viral Illness	77
Chronic Illness Protocol	78
Alzheimer’s Protocol	78
Adjunctive IV Treatment for Cancer with IV Vitamin C	78
Chelation Therapy	80
EDTA.....	80
Calculation of creatinine clearance	81
Plaquex	82
Suppliers for Materials.....	83
Table 2 – Dr. Shrader’s Office IV Protocols (selected) – 2015.....	84
Chapter 7: Preparation and Use of Preservative-free Nutrients.....	87
USP 797.....	88
Materials You Will Need.....	88
Solution Process	89
Filtration.....	91
Some specifics about nutrients.....	92
Conclusion	93
Table 5: Nutrient Formulations for Compounding Preservative-free Nutrients – Trace Minerals.....	96
Waiver Forms.....	97
Consent for Non-conventional Treatment	97
Agreement by Medicare Beneficiary for Medical Services by Physician Opted Out of Medicare	98
Notice in Advance of Service to Patient that Service May Not Be Covered by Medicare	99
IV Therapy for Asthma/Other Health Problems -- Signature Form	100
References.....	101
IV References, not categorized (pre-1998 – sequential, by date).....	101
IV References, categorized by nutrient, most recent to older (Dec. 31 1998 - present).....	104
